IMMUNIZATION INFORMATION

California law requires that all schoolchildren be immunized against Polio; Diphtheria, Pertussis and Tetanus (DPT); Hepatitis B; Measles, Mumps and Rubella (MMR); and Varicella.

After a student's 7th birthday, a DPT/DTaP booster shot is required to enter grades 7–12. Parents should call their doctor's office to schedule the student's appointment if the District has not yet received the required immunization documentation.

Parents or guardians of students in any California school, private or public, are no longer able to submit a personal belief exemption for required vaccines. Only a permanent medical exemption from a licensed physician is allowed. Please see the table on the following page for more information (SB277). For additional information, please go to www.shotsforschool.org.

First grade students must have a health screening within the first 90 days of entrance into first grade. Students must submit an up-to-date immunization record at the time of enrollment. A certificate stating that the child received a health checkup within the previous 18 months is acceptable.

AB 1433, The Oral Health Assessment, requires that children entering public school for the first time in PK, K, or first grade have a dental check-up by May 31. Dental evaluations that have happened within the 12 months prior to school entry meet this requirement.

Students whose immunization records have not been verified by the school nurse **CANNOT BE ENROLLED**. Students are not allowed to attend school until their immunization records comply with California's legal requirements.

GRADE	NUMBER OF DOSES REQUIRED OF EACH IMMUNIZATION ^{1, 2, 3}				
K-12 Admission	4 Polio⁴	5 DTaP⁵	3 Hep B⁶	2 MMR⁷	2 Varicella
(7th-12th)⁸	K-12 doses	+ 1 Tdap			
7th Grade Advancement^{9,10}		1 Tdap⁸			2 Varicella¹⁰

- Requirements for K-12 admission also apply to transfer pupils.
- Combination vaccines (e.g., MMRV) meet the requirements for individual component vaccines. Doses of DTP count towards the DTaP requirement.
- Any vaccine administered four or fewer days prior to the minimum required age is valid.
- Three doses of polio vaccine meet the requirement if one dose was given on or after the 4th birthday.
- Four doses of DTaP meet the requirement if at least one dose was given on or after the 4th birthday. Three doses meet the requirement if at least one dose of Tdap, DTaP, or DTP vaccine was given on or after the 7th birthday (also meets the 7th-12th grade Tdap requirement. See fn. 8.)
- One or two doses of Td vaccine given on or after the 7th birthday count towards the K-12 requirement.
- For 7th grade admission, refer to Health and Safety Code section 120335, subdivision (c).
- Two doses of measles, two doses of mumps, and one dose of rubella vaccine meet the requirement, separately or combined. Only doses administered on or after the 1st birthday meet the requirement.
- For 7th-12th graders, at least one dose of pertussis-containing vaccine is required on or after the 7th birthday.
- For children in ungraded schools, pupils 12 years and older are subject to the 7th grade advancement requirements.
- The varicella requirement for seventh grade advancement expires after June 30, 2025.

DTaP/Tdap = diphtheria toxoid, tetanus toxoid, and acellular pertussis vaccine

Hep B = hepatitis B vaccine

MMR = measles, mumps, and rubella vaccine

CONDITIONALLY ADMIT any pupil who lacks documentation for unconditional admission if the pupil has:

- Commenced receiving doses of all the vaccines required for the pupil's grade (table above) and is not currently due for any doses at the time of admission (as determined by intervals listed in Conditional Admission Schedule, column entitled "EXCLUDE IF NOT GIVEN BY"), or
- A temporary medical exemption from some or all required immunizations.*

2. If DTaP #3 is the final required dose, DTaP #3 should be given at least six months after DTaP #2, and pupils should be excluded if not given by 12 months after second dose. Three doses meet the requirement if at least one dose of Tdap, DTaP, or DTP vaccine was given on or after the seventh birthday. One or two doses of Td vaccine given on or after the seventh birthday count towards the requirement.

Continued attendance after conditional admission is contingent upon documentation of receipt of the remaining required immunizations. The school shall:

- review records of any pupil admitted conditionally to a school at least every 30 days from the date of admission,
- inform the parent or guardian of the remaining required vaccine doses until all required immunizations are received or an exemption is filed, and
- update the immunization information in the pupil's record.

For a pupil **transferring** from another school in the United States whose immunization record has not been received by the new school at the time of admission, the school may admit the child for up to 30 school days. If the immunization record has not been received at the end of this period, the school shall exclude the pupil until the parent or guardian provides documentation of compliance with the requirements.
